

My name is Sean Cooper and I have been a Governor at St. James's since 2017. I am also fortunate enough to have the opportunity in this academic year as being Vice Chair to Harry Turner. I work as a Senior IT Project Manager for a well-known Health Insurer in Bournemouth so I am able to bring Financial, IT and general governance skills to the Board of Governors.

I live locally in the village and have 2 girls who will be attending St. James. My goal as a governor is to help support the school's development plan and in turn making the school the best it can be and become the beacon of the village and community – making the school into a stand out Forest School should be our next step in achieving this goal.

In my spare time (apart from being a human climbing frame to my daughters), I am a lifelong, passionate Man United fan – sorry!
